**IB Biology Plagiarism Contract -- Instructor: Ms. Knetter**

Ronald Wilson Reagan College Preparatory High School's principles regarding academic integrity defines plagiarism as "submitting material that in part or whole is not entirely a student's own work without attributing that material to its correct source." Our school regards plagiarism as a serious academic offense. Students are required to turn in work that is either completely original or that is properly cited according to the directions of the given assignment. Plagiarism can occur in many forms besides writing: art, music, computer, mathematics, and scientific work can also be plagiarized. **It is important to understand that unauthorized collaboration on a class assignment is also plagiarism.** In all academic work, and especially when writing papers, we are building upon the words and insights of others. A conscientious writer must always distinguish clearly between what has been learned from others and what he or she is personally contributing to the reader's understanding. To avoid plagiarism, it is important that students understand how to attribute words and ideas to their proper source. Papers that contain plagiarized work will be given a grade of zero and returned to the student. To further student responsibility in this regard, Ronald Wilson Reagan College Preparatory High School subscribes to the [www.turnitin.com](http://www.turnitin.com) screening site. Classroom work is regularly recorded through this site and monitored for plagiarized material.
